

## Series 5 Freedom One Life – ultimate freedom

### The power wheelchair for every path – and your life

Imagine a wheelchair that never lets you down – whether you are navigating the city, exploring off-road trails, living your daily routine or embarking on a global adventure. The Series 5 delivers powerful performance, Swiss-quality engineering, and unmatched reliability: with 660 W motors, a 40 km range, and a rugged build, it is the perfect companion for those who live life without compromise.

### Built for explorers – durable, off-road capable, fast

Thanks to its large low-pressure tires and premium suspension, the Series 5 easily handles rough terrain, curbs, and inclines. Whether you are strolling through the forest, heading to the office, or catching a flight, you stay in control with custom driving profiles and precise steering. Moreover, with speeds up to 12 km/h, you are always on the move.

### Travel without limits – flight-ready and easy to transport

Designed for travel enthusiasts, the Series 5 is ready for takeoff in seconds. Its foldable backrest and battery isolation key make it flight-friendly, while its construction meets international safety standards. Wherever you go, peace of mind travels with you.

### Maximum reliability – tested around the world

Alex Papanikolaou, founder and powerchair user personally tested the Series 5 under extreme conditions on five continents, covering over 30,000 km. Every detail carefully crafted for long-term reliability. The result: a crash-tested powerchair optimized for car, train, and air travel, equipped with a flight-approved battery switch and a globally compatible charger. No bulky accessories needed – you are always ready to go.

### Fully adaptable – tailored to your needs

The Series 5 adapts to you: with multiple seat sizes, electric adjustment features, intuitive controls and a wide range of options, it offers unmatched flexibility. Whether you are watching a movie, chatting with friends, or shopping for groceries – this chair lets you experience true freedom, designed by people who understand what really matters.

## Tech Specs
